2. (S/D) Makale Storage Facility [REDACTED] Figure 1) consists of three storage buildings, two storage buildings/workshops, one probable administration building, two support buildings, and one building and a probable water reservoir under construction (not all annotated on graphic). The entire area will be enclosed by a quadruple security fence. The fence system was in the early stages of construction on [REDACTED] and consists of four parallel rows of post holes surrounding the facility. Additional security is provided by personnel trenching and automatic weapons firing positions.

3. (S/D) The probable administration building appears to be an existing government building that has been taken over by the Ethiopian military. The building has been present for a number of years and as late as [REDACTED] was the only building in the immediate area. However, on that day a bulldozer was being used for preliminary ground scraping in the area.
